LANGUAGES

English

Full Professional Proficiency

Tagalog

Native

Graduate of Computer Science with experience working as a Backend of Software Development. Looking for a role where I can grow and learn from experienced team members while learning new tools and drawing on project experience I have already successfully executed. Also looking to leverage experience responsive and scalable web apps to solve problems that delight end-users.

WORK EXPERIENCE

Eulap Software Solutions

(May 2021 - May 2022)

Senior Java Developer

- Restructured the existing project and implemented Big O notation and significantly lowered the time complexity
- Wrote code that meets or exceeds the expectations of the product owner and adheres to the company's coding standard
- Participated in code reviews, providing feedback that improves the overall code quality and maintainability
- Investigated and fixed defects in code, ensuring that all code is thoroughly tested before being deployed to production
- Worked with the team to design and implement new features, making sure that all changes are properly documented
- Mentored junior developers, helping them to grow and develop their skills

Eulap Software Solutions

(May 2019 - May 2021)

Junior - Mid Java Developer

- Working on agile scrum methodology and involving in stand-up meetings to monitor the progress
- Following the Agile methodology and participating in sprints during development
- Involving in the complete software development life cycle including requirement analysis, design, implementation, testing, and maintenance
- Designing and implementing the customized exception handling to handle the exceptions in the application
